

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

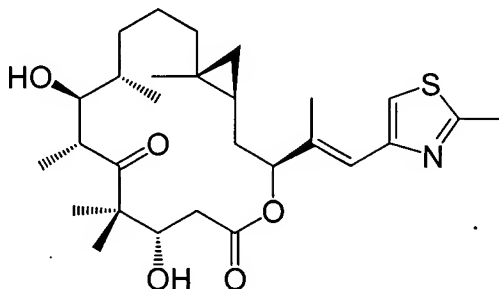

1. **(Previously presented)** A compound represented by the following formula:

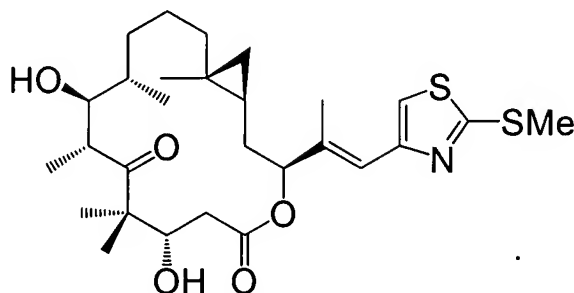

wherein R is a radical selected from the group consisting of the following structures:

2. **(Original)** A compound according to claim 1 represented by the following formula:

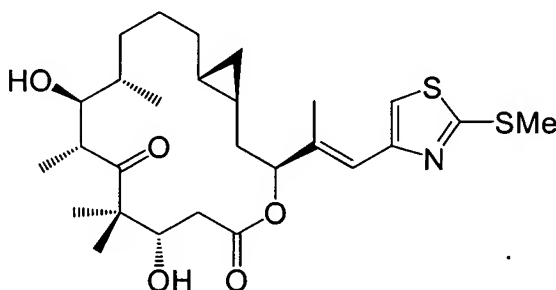

3. **(Original)** A compound according to claim 1 represented by the following formula:

Claims 4-8: **(Cancelled)**

9. **(Previously presented)** A compound represented by the following formula:

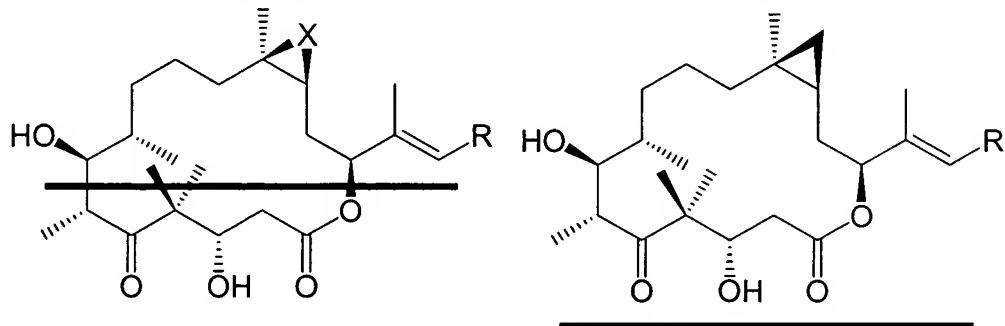

Claim 10: **(Cancelled)**

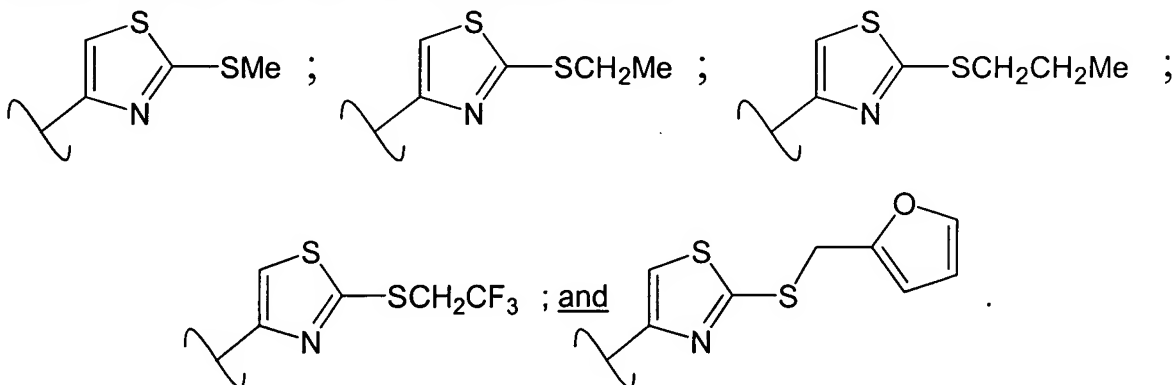

11. **(Currently amended)** A pharmaceutical composition containing a therapeutic dose of any one or more of the compounds of claims 1-3, 9, 13, 15-18, and 27, and 29 for the treatment of a proliferative disease in a mammal, said proliferative disease being selected from the group consisting of ovarian and epidermoid cancers of a type responsive to one or more of the compounds of claims 1-3, 9, 13, 15-18, 27, and 29.

12. **(Original)** A pharmaceutical composition according to claim 11 where the mammal is a human.

13. (Currently amended) A compound represented by the following structure:

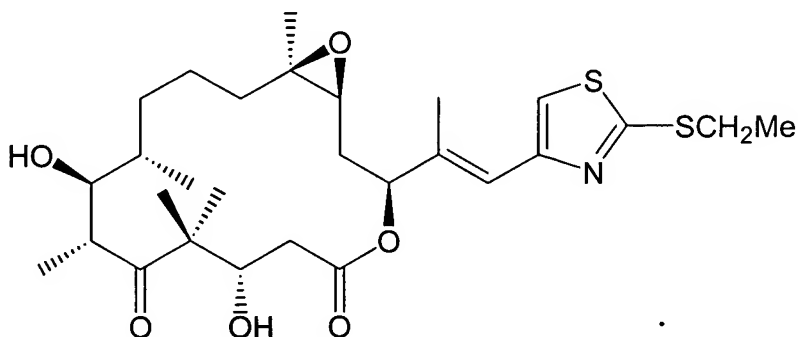

wherein ~~X is oxygen or methylene~~ and R is a radical selected from the group consisting of radicals represented by the following structures:

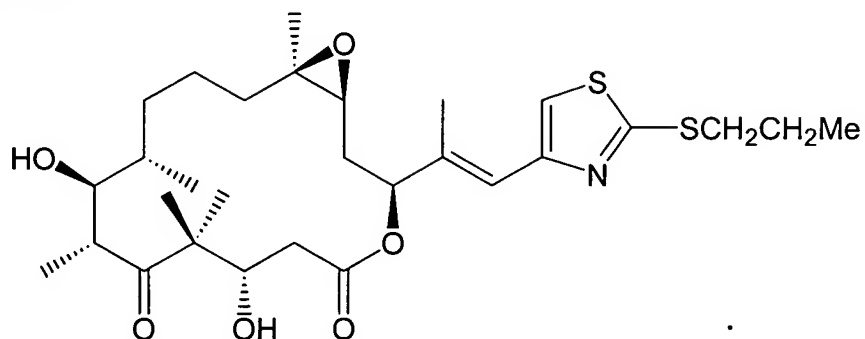

Claim 14. (Cancelled)

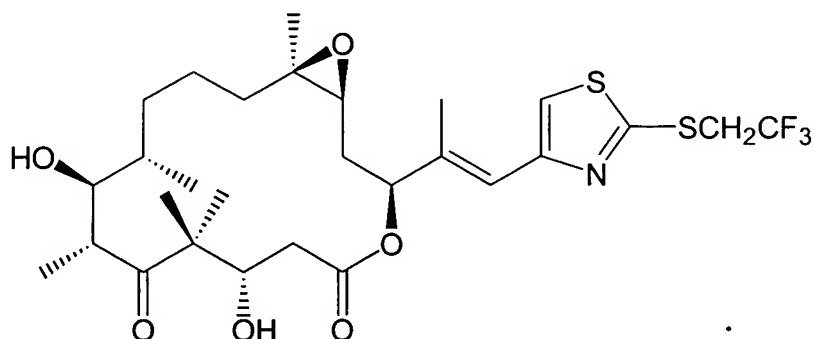

15. (Currently amended) A compound according to claim 43 ~~29~~ represented by the following structure:

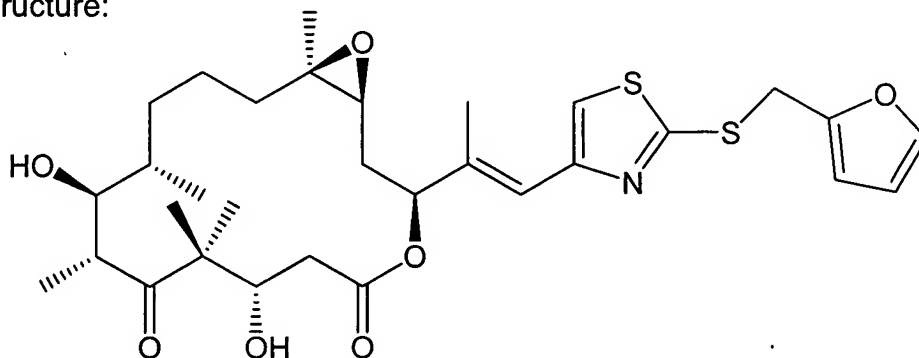

16. **(Currently amended)** A compound according to claim 13 29 represented by the following structure:

17. **(Currently amended)** A compound according to claim 13 29 represented by the following structure:

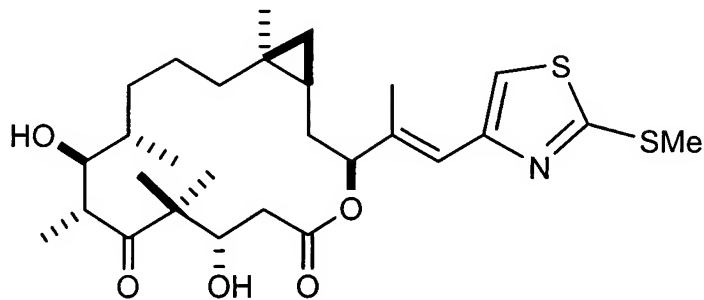

18. **(Currently amended)** A compound according to claim 13 29 represented by the following structure:

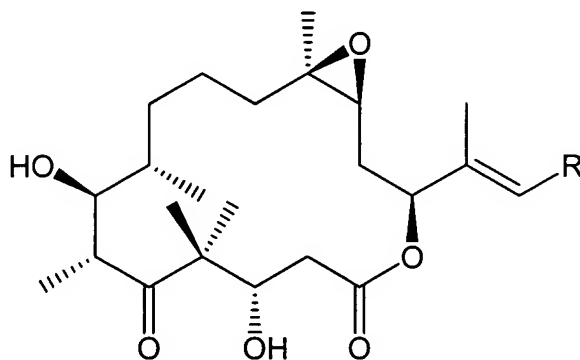

Claims 19-26: (Cancelled)

27. (Currently amended) A compound represented by the following structure:

Claim 28: (Cancelled)

29. (New) A compound represented by the following structure:

wherein R is a radical selected from the group consisting of radicals represented by the following structures:
